Contents

Volume 36, Number 1, August 1996

1 *R.L. France:* Absence or masking of metabolic fractionations of ^{13}C in a freshwater benthic food web

7 *Stephen J. Hecnar and Robert T. M'Closkey:* Amphibian species richness and distribution in relation to pond water chemistry in south-western Ontario, Canada

17 *Stephen Young and Penelope J. Watt:* Daily and seasonal vertical migration rhythms in *Daphnia*

23 *Carmen Zamora-Muñoz and Bo W. Svensson:* Survival of caddis larvae in relation to their case material in a group of temporary and permanent pools

33 *E.P.H. Best, H. Woltman and F.H.H. Jacobs:* Sediment-related growth limitation of *Elodea nuttallii* as indicated by a fertilization experiment

45 *John R. Beaver and Karl E. Havens:* Seasonal and spatial variation in zooplankton community structure and their relation to possible controlling variables in Lake Okeechobee

57 *Simon A. Townsend, Jim T. Luong-van and Kevin T. Boland:* Retention time as a primary determinant of colour and light attenuation in two tropical Australian reservoirs

71 *N. LeRoy Poff:* A hydrogeography of unregulated streams in the United States and an examination of scale-dependence in some hydrological descriptors

93 *Gudrun Enders and Rüdiger Wagner:* Mortality of *Apatania fimbriata* (Insecta: Trichoptera) during embryonic, larval and adult life stages

105 *William W. Cloe, III and Greg C. Garman:* The energetic importance of terrestrial arthropod inputs to three warm-water streams

115 *Erik Jeppesen, Esben Agerbo Madsen, Jens Peder Jensen and N. John Anderson:* Reconstructing the past density of planktivorous fish and trophic structure from sedimentary zooplankton fossils: a surface sediment calibration data set from shallow lakes

Special Applied Issues Section: Monitoring Acid Waters in the United Kingdom

129 *Jill Lancaster and Simon Patrick:* The U.K. Acid Waters Monitoring Network: a preface

131 *S. Patrick, R.W. Battarbee and A. Jenkins:* Monitoring acid waters in the U.K.: an overview of the U.K. Acid Waters Monitoring Network and summary of the first interpretative exercise

151 *Glenn W. Campbell and David S. Lee:* Atmospheric deposition of sulphur and nitrogen species in the U.K.

169 *Alan Jenkins, David Boorman and Mike Renshaw:* The U.K. Acid Waters Monitoring Network: an assessment of chemistry data, 1988–93

179 *J. Lancaster, M. Real, S. Juggins, D.T. Monteith, R.J. Flower and W.R.C. Beaumont:* Monitoring temporal changes in the biology of acid waters

203 *S. Juggins, R.J. Flower and R.W. Battarbee:* Palaeolimnological evidence for recent chemical and biological changes in U.K. Acid Waters Monitoring Network sites

Volume 36, Number 2, October 1996

221 *Jean-Jacques Frenette, Warwick F. Vincent, Louis Legendre and Toshi Nagata:* Size-dependent changes in phytoplankton C and N uptake in the dynamic mixed layer of Lake Biwa

237 *D. Dudley Williams and Marilyn R. Smith:* Colonization dynamics of river benthos in response to local changes in bed characteristics

© 1996 Blackwell Science Ltd

249 *Urs Uehlinger, Heinrich Bührer and Peter Reichert:* Periphyton dynamics in a floodprone prealpine river: evaluation of significant processes by modelling

265 *Zsolt E. Kovats, Jan J. H. Ciborowski and Lynda D. Corkum:* Inland dispersal of adult aquatic insects

277 *Jacquelyn M. Rowe, Sean K. Meegan, Erik S. Engstrom, Sue A. Perry and William B. Perry:* Comparison of leaf processing rates under different temperature regimes in three headwater streams

289 *J.M. Hughes, S.E. Bunn, D.A. Hurwood, S. Choy and R.G. Pearson:* Genetic differentiation among populations of *Caridina zebra* (Decapoda: Atyidae) in tropical rainforest streams, northern Australia

297 *Ian Hawes and Anne-Maree Schwarz:* Epiphytes from a deep-water characean meadow in an oligotrophic New Zealand lake: species composition, biomass and photosynthesis

315 *Meryem Beklioglu and Brian Moss:* Mesocosm experiments on the interaction of sediment influence, fish predation and aquatic plants on the structure of phytoplankton and zooplankton communities

327 *Tom J. Little and Paul D.N. Hebert:* Endemism and ecological islands: the ostracods from Jamaican bromeliads

339 *Carolyn L. Fuss and Leonard A. Smock:* Spatial and temporal variation of microbial respiration rates in a blackwater stream

351 *Alexander D. Huryn:* Temperature-dependent growth and life cycle of *Deleatidium* (Ephemeroptera: Leptophlebiidae) in two high-country streams in New Zealand

363 *P. Carrillo, I. Reche and L. Cruz-Pizarro:* Intraspecific stoichiometric variability and the ratio of nitrogen to phosphorous resupplied by zooplankton

375 *Jamie T.A. Dick and Dirk Platvoet:* Intraguild predation and species exclusions in amphipods: the interaction of behaviour, physiology and environment

385 *Christopher M. Taylor:* Abundance and distribution within a guild of benthic stream fishes: local processes and regional patterns

Applied Issues

397 *David R. Barton:* The use of Percent Model Affinity to assess the effects of agriculture on benthic invertebrate communities in headwater streams of southern Ontario, Canada

411 *L.A. Kelly and S. Smith:* The nutrient budget of a small eutrophic loch and the effectiveness of straw bales in controlling algal blooms

419 *Melissa Parsons and Richard H. Norris:* The effect of habitat-specific sampling on biological assessment of water quality using a predictive model

435 *Petra M. Visser, Bas W. Ibelings, Bart van der Veer, Jan Koedood and Luuc R. Mur:* Artificial mixing prevents nuisance blooms of the cyanobacterium *Microcystis* in Lake Nieuwe Meer, the Netherlands

451 *Penny Johnes, Brian Moss and Geoffrey Phillips:* The determination of total nitrogen and total phosphorus concentrations in freshwaters from land use, stock headage and population data: testing of a model for use in conservation and water quality management

475 *Ingrid Jüttner, Heike Rothfritz and S.J. Ormerod:* Diatoms as indicators of river quality in the Nepalese Middle Hills with consideration of the effects of habitat-specific sampling

Volume 36, Number 3, December 1996

487 *Jonas Dahl and Larry Greenberg:* Effects of habitat structure on habitat use by *Gammarus pulex* in artificial streams

497 *Andreas Frutiger:* Embryogenesis of *Dinocras cephalotes, Perla grandis* and *P. marginata* (Plecoptera: Perlidae) in different temperature regimes

509 *Todd D. French and Patricia A. Chambers:* Habitat partitioning in riverine macrophyte communities

521 *Nandini Iyer and T. Ramakrishna Rao:* Responses of the predatory rotifer *Asplanchna intermedia* to prey species differing in vulnerability: laboratory and field studies

535 *Karina Kjeldsen:* Regulation of algal biomass in a small lowland stream: field experiments on the role of invertebrate grazing, phosphorus and irradiance

547 *J. M. Elliott, M. A. Hurley and J. D. Allonby:* A functional model for maximum growth of immature stone loach, *Barbatula barbatula*, from three populations in north-west England

555 *Peder G. Eriksson and Stefan E. B. Weisner:* Functional differences in epiphytic microbial communities in nutrient-rich freshwater ecosystems: an assay of denitrifying capacity

563 *Ronald W. Davies and Nathan J. McLoughlin:* The effects of feeding regime on the growth and reproduction of the medicinal leech *Hirudo medicinalis*

569 *Brooke Ann Zanetell and Barbara L. Peckarsky:* Stoneflies as ecological engineers – hungry predators reduce fine sediments in stream beds

579 *Karl E. Havens, Therese L. East and John R. Beaver:* Experimental studies of zooplankton–phytoplankton–nutrient interactions in a large subtropical lake (Lake Okeechobee, Florida, USA)

599 *Rainer Kurmayer and Josef Wanzenböck:* Top-down effects of underyearling fish on a phytoplankton community

611 *Gilles Poizat and Didier Pont:* Multi-scale approach to species–habitat relationships: juvenile fish in a large river section

623 *Anne Peters and Nicolaas K. Michiels:* Do simultaneous hermaphrodites choose their mates? Effects of body size in a planarian flatworm

631 *Per Nyström, Christer Brönmark and Wilhelm Granéli:* Patterns in benthic food webs: a role for omnivorous crayfish?

647 *D. E. C. Smith and Ronald W. Davies:* Effects of aggregative behaviour on the bioenergetics of the freshwater predatory leech *Nephelopsis obscura* (Erpobdellidae)

661 *John E. Titus and John H. Andorfer:* Effects of CO_2 enrichment on mineral accumulation and nitrogen relations in a submersed macrophyte

Applied Issues

673 *Per Nyström and John A. Strand:* Grazing by a native and an exotic crayfish on aquatic macrophytes

683 *Susana Romo, Ellen van Donk, Ronald Gylstra and Ramesh Gulati:* A multivariate analysis of phytoplankton and food web changes in a shallow biomanipulated lake

697 *Heikki Hämäläinen and Pertti Huttunen:* Inferring the minimum pH of streams from macroinvertebrates using weighted averaging regression and calibration

711 *Shigeru Nakano, Fumiaki Kitano and Koji Maekawa:* Potential fragmentation and loss of thermal habitats for charrs in the Japanese archipelago due to climatic warming

723 *Christopher L. Rowe, Owen M. Kinney, Alison P. Fiori and Justin D. Congdon:* Oral deformities in tadpoles (*Rana catesbeiana*) associated with coal ash deposition: effects on grazing ability and growth

731 *Bruce W. Stallsmith, John P. Ebersole and William G. Hagar:* The effects of acid episodes on *Lepomis* sunfish recruitment and growth in two ponds in Massachusetts, USA

745 *J. Molinero, J. Pozo and E. Gonzalez:* Litter breakdown in streams of the Agüera catchment: influence of dissolved nutrients and land use

757 *Rita Adrian and Rainer Deneke:* Possible impact of mild winters on zooplankton succession in eutrophic lakes of the Atlantic European area

771 *David L. Strayer and Laine C. Smith:* Relationships between zebra mussels (*Dreissena polymorpha*) and unionid clams during the early stages of the zebra mussel invasion of the Hudson River
